## Critical Care Nursing 2009

*Whether you're new to critical care, or an experienced critical care nurse who wants an intensive review, you'll find that Critical Care Nursing 2008 actually teaches you how to be a good ICU nurse, not just how to pass a test. You'll come to understand critical pathophysiology, learn how to use diagnostic and monitoring tools, get comfortable with ventilators, and learn the most current treatment protocols.*

*Taught by an experienced faculty of critical care physicians and nurses, you'll find Critical Care Nursing 2008 to be just what you need to feel confident and up to date in your critical care knowledge base.*

**October 20-22, 2009**

Pennsylvania Institute Of  
Applied Health Sciences Lecture Hall  
603 West Main Street  
Waynesboro, Pennsylvania

*This program approved by the American Association of  
Critical Care Nurses for 24.0 Contact Hours  
Category A, File # 00014382*
